

Weatherproof outlet boxes

Single-gang

Applications:

- For use as a weatherproof junction box or device housing in damp or wet locations when combined with weatherproof cover

Features:

- Durable die cast aluminum construction for long product life
- Powder paint finish for corrosive environments
- Pre-installed ground screw
- Tapered NPT hubs
- Includes mounting hardware, lugs and closure plugs

Certifications and compliances:

- UL File No. E-121488
- CSA C22.2 No. 18
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Standard material:

- Die cast aluminum

Weatherproof outlet covers

Blank steel and lampholder

Applications:

- Lampholder covers provide a mounting location for single-gang or 4" round weatherproof outlet box
- Blank steel covers provide weatherproof protection when box is not in use

Features:

Lampholder cover:

- Durable die cast aluminum construction for long product life
- Provide mounting for lampholders and accessories
- Powder paint finish for corrosive environments
- Two- and three-hole covers include two closure plugs
- Includes gasket and hardware

Blank cover:

- Stamped steel
- Includes gasket and hardware

Certifications and compliances:

- cULus File Nos. E-121488, E163827
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Extra duty non-metallic while-in-use covers

Eaton exclusive

Applications:

- Designed to provide weatherproof protection while an outlet is in use

Features:

- Corrosion-resistant, non-conductive UV-rated polycarbonate for long outdoor life
- Corner ball joint hinge for true universal mounting capability
- No disassembly required for vertical or horizontal mounting orientation
- Adapters for decorator and GFCI devices, duplex receptacles, switches and round receptacles
- Keyhole provision for easy mounting
- Pre-installed gasket, mounting hardware and installation instructions included
- Easy to close lockable cover

Certifications and compliances:

- cULus – File Nos. E102328 & E15022
- cCSAus
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Standard materials:

- Body and cover – polycarbonate
- Gaskets – polyethylene foam

Weatherproof

Extra duty metallic while-in-use covers

Eaton exclusive

Applications:

- Designed to provide weatherproof protection while an outlet is in use

Features:

- Durable die cast, powder coated aluminum construction
- Corner ball joint hinge for true universal mounting capability
- No disassembly required for vertical or horizontal mounting orientation
- Adapters for decorator and GFCI devices, duplex receptacles, switches and round receptacles
- Keyhole provision for easy mounting
- Pre-installed gasket, mounting hardware and installation instructions included
- Easy to close lockable cover

Certifications and compliances:

- cULus – File Nos. E102328 & E15022
- cCSAus
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Weatherproof

Extra duty low profile while-in-use covers

Applications:

- Low profile design that provides weatherproof protection while an outlet is in use and the cover is closed

Features:

- Corrosion-resistant, non-conductive UV-rated polycarbonate for long outdoor life
- Horizontal and vertical mounting options
- No cord bending inside the cover
- Adapters for duplex and GFCI receptacles included
- Rated for 15A
- Easy to close lockable cover
- Pre-installed gasket, mounting hardware and installation instructions included

Certifications and compliances:

- cCSAus
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Weatherproof

Extra duty recessed while-in-use covers

Applications:

- Replaces separate installation of outlet box, siding guard and while-in-use cover

Features:

- One-piece assembly replaces separate installations
- Corrosion-resistant, non-conductive UV-rated polycarbonate for long outdoor life
- Horizontal and vertical mounting options with corner opening for cord
- Rough-in style weatherproof box
- For use with siding and brick exteriors
- Adaptable for duplex, GFCI and round receptacles
- Easy to close lockable cover

Extra duty while-in-use kits

Eaton exclusive

Applications:

- While-in-use cover kits are used to provide weatherproof protection for included devices

Features:

- Kits include single-gang outlet box, in-use cover and 15A TRWR GFCI device
- Corner ball joint hinge for true universal mounting capability
- Includes pre-installed gasket, mounting hardware and closure plugs
- Easy to close lockable cover

Certifications and compliances:

- cULus – File No. E324733
- cCSAus
- Complies with NEC Article 406.9(B)(1)
- NEMA 3R

Standard materials:

- Outlet boxes – die cast aluminum
- Metallic covers – die cast aluminum
- Non-metallic covers – polycarbonate
- Gaskets – polyethylene foam

Weatherproof

Weatherproof LED

Applications:

- LED weatherproof luminaires combine the energy efficiency of LED technology with rugged weatherproof construction to provide a versatile residential or commercial outdoor lighting solution

Features:

- Durable die cast aluminum construction for long product life
- Tool-free adjustable head lamps
- Powder paint finish for corrosive environments
- 3000K warm white color
- Voltage – 120/277V
- Long life, up to 12 years
- Closure plugs, gasket and hardware included
- Suitable for wet locations

Certifications and compliances:

- cULus Listed
- UL File Nos. E470512 and E514227

Standard materials:

- Luminaire housing – die cast aluminum
- Lens – polycarbonate

Standard finish:

- Painted powder coat
