LIQUIDTIGHT FITTINGS

LiQuik™ Series • Liquidator™ Series • Low Profile Series • Zinc Die Cast Series • Non-Metallic Series • Class I, Division 2 • Class II, Divisions 1 & 2 • Class III, Divisions 1 & 2

Cooper Crouse-Hinds® liquidtight product line offers high-quality, high-performance fittings. Designed to the toughest standards and integrating the latest technology, not only do you get a reliable and durable product, you also get one that reduces installation time and cost. Our versatile lines of liquidtight fittings are designed for a wide range of applications. Choose from our Liquidator, LiQuik, Zinc Die Cast, Non-Metallic or Low Profile liquidtight fittings. Whatever your needs are, you can be assured that our liquidtight fittings will stand up to the most demanding, wet or corrosive environments.

Liquidtight fittings come in a wide range of sizes in straight, 45° and 90° styles. They are available in steel, aluminum, zinc die cast or non-metallic with or without insulated throats and aluminum or copper grounding lugs.

Applications

Typical applications for liquidtight conduit and liquidtight fittings include the wiring of machine tools, motors, transformers, food processing equipment, robotics, air conditioning units, illuminated store front signs and billboards, etc. The flexible metallic conduit and fittings protect conductors from mechanical damage due to vibration and movement, and seal out cutting oils, coolants, water, dust, etc. Applications such as these can be found in, but are not limited to, industries such as:

- machine tool manufacturers
- electric power generating plants
- waste treatment facilities
- paint manufacturing facilities
- automobile manufacturing facilities
- aerospace industries
- breweries
- food processing plants
- dairies
- pulp and paper mills
- petroleum refineries
- chemical and petrochemical plants

Certifications & Compliances

- UL Listed liquidtight flexible metal conduit fittings are suitable for use in the following hazardous locations under NEC, Class I, Division 2; Class II, Division 1 and 2; and Class III, Division 1 and 2, and are suitable for grounding in sizes 3/8" through 1-1/4" under NEC.
- UL Standards: 514B, 467
- cUL Standard: C22.2 No. 18F

Features & Benefits

Product Features	User Benefits
<ul style="list-style-type: none"> • UL Listed, cUL Certified. 	<ul style="list-style-type: none"> • Assurance of safe and reliable performance. End user peace of mind.
<ul style="list-style-type: none"> • Provides protection in wet locations. 	<ul style="list-style-type: none"> • Meets NEC and UL requirements for use in wet locations. Reduces downtime and replacement costs.
<ul style="list-style-type: none"> • Available in various configurations in various trade sizes and materials. 	<ul style="list-style-type: none"> • Complete selection of styles and sizes. Easy selection from one source, saves time and money.
<ul style="list-style-type: none"> • Hex surfaces on gland nut and body. 	<ul style="list-style-type: none"> • Easy wrenching. Fast, easy installation results in labor savings.
<ul style="list-style-type: none"> • Thermoplastic elastomer sealing gasket effectively seals out water, oil, dust and dirt. 	<ul style="list-style-type: none"> • Eliminates leakage, potential downtime and replacement costs.
<ul style="list-style-type: none"> • Lock nut bites into box. 	<ul style="list-style-type: none"> • Provides a reliable ground and safety of personnel and equipment. Won't vibrate loose.
<ul style="list-style-type: none"> • Cupped long grounding ferrule is distortion-free. 	<ul style="list-style-type: none"> • Provides excellent pullout strength, prevents conduit popout and provides grounding for safety of personnel and equipment.

Liquidtight Fittings Selection Chart

Family	Material	Size/Range	Configurations	Typical Applications	For More Details
Liquidator	Malleable Iron	3/8"–6"	Straight, 45°, 90°	Tough, industrial, corrosive for STANDARD APPLICATIONS	See page 4 & 5
Liquidator Aluminum LT-SA	Copper-free Aluminum	3/8"–4"	Straight & 90°*	Tough, industrial, corrosive applications where ALUMINUM MATERIAL PREFERRED	See page 4 & 5
LTK Low Profile	Steel/Malleable Iron	3/8"–2"	Straight, 45°, 90°	Tough, industrial, corrosive applications with SPACE RESTRICTIONS	See page 8
LTQ LiQuik	Malleable Iron	3/8"–2"	Straight	Tough, industrial, corrosive applications needing NO DISASSEMBLY INSTALLATIONS	See page 3
LTDC Zinc Die Cast	Zinc Die Cast	3/8"–4"	Straight & 90°	Tough, industrial, corrosive applications where ZINC DIE CAST MATERIAL PREFERRED	See page 6
LTNM Non-Metallic	Nylon	1/2"–1"	Straight & 90°	Tough, industrial, corrosive for use with NON-METALLIC TYPE B LIQUIDTIGHT CONDUIT	See page 7

* 90° LT-SA available in 3/8"–2" only

LIQUIK™ LIQUIDTIGHT FITTINGS

No disassembly required! The Cooper Crouse-Hinds LiQuik liquidtight fittings are quick and easy to install in just 2 steps, offering huge labor saving potential. Available in trade sizes 3/8" – 2" straight insulated or non-insulated.

Traditional Assembly Installation

1. Slide nut over conduit.

2. Slide compression ring over conduit.

3. Thread ferrule inside the conduit.

4. Slide the conduit assembly inside body.

5. Slide compression nut and ring toward the connector.

6. Tighten the nut.

New LiQuik Assembly Installation In Just 2 Steps:

1. Slide conduit inside the fully assembled connector.

2. Turn the connector assembly or the conduit until the ferrule threads engage the spirals in the conduit. The pins in the ferrule are locked inside the holes in the connector body, preventing the ferrule from turning. Tighten the nut against the connector.

Done!

NON-METALLIC LIQUIDTIGHT CONDUIT FITTINGS

Cooper Crouse-Hinds Non-Metallic liquidtight conduit fittings are for use with non-metallic Type B liquidtight conduit and flexible non-metallic tubing to terminate and seal conduit to a liquidtight, oiltight, or raintight box or enclosure. They are used in applications such as wiring motors, transformers, processing equipment, pumps, etc. The non-metallic liquidtight connectors are made of nylon construction that is corrosion resistant and UV Rated for long outdoor life. They are furnished with a zinc die cast lock nut and sealing ring that seals out water and other corrosive liquids. They feature a no-spin ferrule that allows for easy installation (no disassembly required). The fittings are available in two styles, straight and 90° in trade sizes 1/2" – 1".

Features & Benefits

- Liquidtight, raintight, oiltight.
- Furnished with lock nut and sealing ring.
- Corrosion resistant.
- Suitable for wet locations.
- No-spin ferrule.
- No disassembly required for installation.
- 90° has smooth, gradual radius bend to prevent abrasion of conductors.

Materials

- Body and sealing ring: Nylon.
- Lock nut: Zinc die cast.

Certifications & Compliances

- UL Listed
- cUL Listed

Ordering & Dimensional Information

Straight Connector — Nylon

LOW PROFILE LIQUIDTIGHT FITTINGS

The Low Profile liquidtight fittings are designed specifically for applications that require close side-by-side mounting of multiple liquidtight fittings in tight spaces.

Standard Materials

- Body – steel (straight fittings), malleable iron (angle fittings)
- Gland nut – steel
- Ferrule – steel
- Gland nut sealing ring – nylon
- Sealing gasket – polypropylene

Standard Finishes

- Steel – zinc electroplate
- Malleable iron – zinc electroplate
- Nylon – natural
- Polypropylene – natural
